ABOUT ME

I am seeking to leverage my expertise as an Agricultural Engineer to pioneer innovative strategies within the Agricultural Mechanization Industry, Irrigation, Drainage, and Environmental Sustainability realms. Dedicated to revolutionizing agricultural practices by introducing novel concepts in farm machinery, water quality assessment, and the enhancement of wastewater and drinking water testing methods. With a tenacious work ethic and a collaborative mindset, I aim to make significant contributions to your team, aligning efforts with your organizational objectives.

WORK EXPERIENCE

AGRICULTURAL REMOTE SENSING (ARSL) LAB, UNIVERSITY OF AGRICULTURE, FAISALABAD – PAKISTAN
UNIVERSITY RESEARCH ASSISTANT – 24/01/2025 – 01/09/2025

- Conducted research on crop water use, evapotranspiration estimation, and irrigation scheduling using remote sensing and GIS techniques.
- Processed and analyzed satellite imagery (Landsat, MODIS, Sentinel) for agricultural monitoring and water resource assessment.
- Applied models such as SEBAL in Google Earth Engine (GEE) to evaluate crop evapotranspiration and water use efficiency.
- Collaborated with faculty and postgraduate researchers on field data collection, lysimeter experiments, and validation studies.
- Contributed to the development of data-driven strategies for sustainable agriculture under varying climatic conditions.
- Installed and maintained a weather station and Santillometer for real-time environmental and soil moisture data collection.
- Performed geo-spatial mapping and spatial analysis for field variability, irrigation planning, and water resource management.

WATER MANAGEMENT TRAINING INSTITUTE PUNJAB, LAHORE – PAKISTAN
Business or Sector Professional, scientific and technical activities

INTERNEE ENGINEER – 27/06/2022 – 05/08/2022

- Gained knowledge and hands-on experience in **water management** practices.
- Conducted research and analysis on the design of a **Sustainable Water Storage Pond** as part of the internship project.

EDUCATION AND TRAINING

14/09/2023 – CURRENT Faisalabad, Pakistan
MASTER OF SCIENCE (HONS.) AGRICULTURAL ENGINEERING University of Agriculture, Faisalabad

02/09/2019 – 17/07/2023 Faisalabad, Pakistan
BACHELOR OF SCIENCE IN AGRICULTURAL ENGINEERING University of Agriculture, Faisalabad

04/09/2017 – 04/09/2019 Sheikhupura, Pakistan
INTERMEDIATE, HIGHER SECONDARY SCHOOL CERTIFICATE Government Graduate Collage For Boys , Sheikhupura

20/07/2015 – 25/07/2017 Nankana Sahib, Pakistan
MATRICULATION, SECONDARY SCHOOL CERTIFICATE Government High School Bhoru, Nankana Sahib

LANGUAGE SKILLS

Mother tongue(s): **URDU | PANJABI; PUNJABI**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2

● CONFERENCES AND SEMINARS

Department of Irrigation and Drainage, University of Agriculture Faisalabad

International Conference on GEO-Informatics for Water and Agricultural Resource Management (ICGWARM)

Upscaling Irrigation and Climate Advisory Services Through Citizen Science

Department of Land and Water Conservation Engineering & Pakistan Council of research in Water Resources (PCRWR)

Faculty of Agricultural Engineering and Technology, Department of Energy System Engineering, UAF

CPD Activity On How to Write an Effective Student Research Proposal and Thesis/Final Year Project Report

Faculty of Agricultural Engineering and Technology , UAF in collaboration with WWF-Pakistan

CPD Seminar on Seeing the Unseen: The Value of Water

American Society of Mechanical Engineers (ASME), E-FEST DIGITAL

Moving Forward with Sustainability Development Goals (SDGs)

Society of Engineers and Technologists ,Faculty of Agricultural Engineering and Technology, UAF

Final Year Project Competition 2022

Society of Engineers and Technologists, UAF in Collaboration with IEEE Student Branch, UAF

Seminar on Final Year Project: Problems and Solutions

● PROJECTS

Design and Development of Non-Contact Water Flow Meter

The main Objectives are:

- We developed a non-contact smart metering device for measuring water flow rates.
- Addressed the challenge of water scarcity in agriculture and improved water use efficiency.

Monitoring of Rakh Branch Canal for Drinking Water Supply.

- The Monitoring of the Rakh Branch Canal, Faisalabad for the Drinking Water Supply project was a crucial initiative aimed at ensuring a safe and clean water supply to the residents of Faisalabad.

Broad Fork with Lever for Manipulation Soil

The main Objectives of the Broad Fork with Lever are:

- To aerate the compact soil, which helps the deep-rooted plants to grow properly
- To loosen the soil for gardening and farming.

Sound Analysis of Residential Areas Around (UAF)

- The academic project involved using an Android app with a sound meter to analyze sound levels in the areas surrounding the University of Agriculture, Faisalabad.
- The project aimed to identify areas with high noise pollution levels and to develop strategies to reduce noise pollution in these areas..

● HONOURS AND AWARDS

17/02/2025

Electric Bike Award – Promoting Green Transportation – Chief Minister Punjab Youth Initiative, Pakistan

08/05/2024

Membership of The American Society of Agricultural and Biological Engineers – The American Society of Agricultural and Biological Engineers (ASABE)

17/04/2024

Registered Engineer (Level II) under the Washington Accord – Pakistan Engineering Council (PEC)

18/09/2023

Scholarship Award – University of Agriculture Faisalabad

28/02/2023

Student Membership of The American Society of Mechanical Engineers – The American Society of Mechanical Engineers (ASME)

11/10/2021

Scholarship Award – University of Agriculture Faisalabad

31/07/2017

Academic Achievement - First in Class at High School Level – Govt. High School Bhoru, Nankana Sahib

19/07/2017

Scholarship Award – The Punjab Educational Endowment Fund (Govt. Punjab)

VOLUNTEERING

20/09/2021 – 10/07/2023 Liaqat Hall Hostel Committee, University of Agriculture Faisalabad

Member of Hostel Committee

- *To serve my fellow students and contribute to the overall well-being of the hostel community.*

12/12/2021 – 20/12/2021 Sangla Hill, Punjab

Wheat Campaign

- *Wheat Campaign Under the General Extension Punjab to meet Food Challenges.*

SKILLS

Technical Skills

i) ArcMap, ii) Water & Soil Quality Assessment, iii) Report writing, iv) Water & Soil Sampling, v) AutoCAD-Intermediate, vi) C++-Intermediate

ONLINE PROFESSIONAL DEVELOPMENT AND TRAINING

How to Write and Publish a Scientific Paper (Project-Centered Course) from Ecole Polytechnique

Understanding Research Methods from University of London

Water: an essential resource from Politecnico di Milano

Discover Best Practice Farming for a Sustainable 2050 from University of Western Australia

Sustainable Agricultural Land Management from University of Florida

Water Quality for Agriculture from University of Agriculture Faisalabad

Water Resources Management and Policy from University of Geneva

Specialization in Climate change education from Inter-American Development Bank

Introduction to GIS Mapping from University of Toronto

Generative AI Application Developer Certificate From Pak Angels, Silicon Vally, California, United States of America
